MINING, BUSINESS AND STOCKS

NEW YORK STILL IN THE ASCENDANT.

Park City Stock Continues Its Meteoric Rise on the Exchange,

SOLD TODAY AT 26 CENTS.

Reported Strike is Somewhat Mysterious, but There Are Those Who Believe it to be Gennine.

New York's meteoric rise still continues. From ready offerings of 201/4 yesterday afternoon, the stock took on new strength during the night, and at this morning's call sold in bunches at figures ranging from 24 to 26 cents. While the reported strike is still somewhat mysterious, there are those who contend that it is genuine, and that the stock will grow stronger instead of weaker. Others again are firm in the belief that conditions do not justify the inflation and are therefore cautious about picking up more than they really need. During the call a total of

7,600 shares found takers and the stock closed wanted at 25½ and offered by a few at not less than 25%.

Aside from the movements in the stock indicated, the call was devoid of special features. Sacramento took part in the trading at 10½, while Butler. in the trading at 10½, while Butler-Liberal changed hands at 12, and closed with the stock offered at 11½. The mar-ket remained fairly firm, but the vol-ume of business done was rather small. The closing figures were as follows:

STRIKE IN NEW YORK

High-Grade Ores Encountered in Winze

Below 400-Level. It came to light late yesterday after-noon that the cause of the activity in New York was the discovery of highgrade cres in this promising Park City producer. The ore is said to have been encountered in the winze below the 400-foot level and occure in such quantities as to warrant the assertion that the mine will report soon with shipments which may continue for an

indefinite period.

The New York is in a great neighborhood, lying as it does not more than a stone's throw from such bonanzas as the Daly, Daly-West, Ontarlo, Silver king and others of like character. Its development has demonstrated the presence within its depths of ore calculated to make its owners wealthy, and the latest strike is only in line with what has been expected for some

GREAT IS BINGHAM.

Eastern Journal Lavish in Its Praise of Etah's Copper Camp.

An eastern publication says that no copper camp in the country has made greater progress the last two years and given greater promise of future growth than the Bingham camp of Utah.
The State of Utah this year should

show a production of about 50,000,000 pounds of copper, compared with about 30,000,000 pounds last year, an increase

of 66 per cent.
Good authorities estimate that by 1908 Utah will be producing 125,000,000 pounds of copper per annum and practically all of this will come from the Bingham camp, exceptions being the Cactus property in Frisco, owned by Samuel Newhouse, which by that time should be producing 15,000,000 pounds of copper per annum, and the Majestic Copper Mining company of Milford,

Utah, which may by that time out-grow its financial troubles and be upon a producing basis. It is not to be expected that the Highland Boy will increase its produc-

the United States, Bingham, Boston Consolidated, Yampa, Ohio Copper company and the Utah Copper company should all have increased outputs within three or four years. Probably the Utah Copper company will make the content records of new production in its Utah Copper company will make the greatest record of new production in its treatment of the Bingham perphyry deposits. It is the expectation of the Utah Copper company management to have an output of 35,000,000 pounds of copper per annum within three years.

A table of prospective production of the Bingham properties including the Cactus, within three years, is as follows:

		Pound
		Annual
		Production
Utah Copper company	Liv	25,000,000
Highland Boy		18,000,000
CRCMS	200	15,000,000
United States Mining	338	10,000,000
Bingham Cons. (from i	ts	OWB
mines)		10,000,000
Boston Cons	5.10	10,000,000
Yampa an arrendered	SEE W	10,000,000
Am. Smelt. & Refining	YYA	10,000,000
		per la mort principion
Total	6.6.3	123,000,000

ed long before the period comprehended in these estimates, a list of copper producers more imposing even than is included in the list above. Many of these will be developed at Bingham, a cluster in Beaver county and with scattering others throughout the state.

THE PIONEER GROUP.

Property Near Alta is to Undergo Process of Patenting.

Arthur Murphy is down from Alla and American Fork canyon, where he is in charge of operations at the Pioneer group, upon which work is being prosecuted prior to securing patents to the

Mr. Murphy speaks enthusiastically of the recent strike in the property of the Pittsburg Mining company, at the head of American Fork canyon, and says without a doubt it is one of the best discoveries made in that region in a long time. The vein encountered has a long time. The vein encountered has been cross-cut for a distance of 12 feet—all in solid galena ore. The Pioneer group adjoins the Pittsburg, consequently Mr. Murphy is more encouraged than ever that he is going to develop something pretty good in a little time. The Miller Mountain strike is characterized as being a monster and history is likely to repeat itself as regards this property. While at Alta Mr. Murphy witnessed the Columbus Consolidated witnessed the Columbus Consolidated mill in operation. He says it is one of the best arranged plants he ever saw and that it is turning out an excellent grade of concentrates.

The Little Mendah.

What is to be known as the Little Mendah Mining company, will file its articles of incorporation with the county clerk in the course of the next day or so. The company, which owns waluable claims adjoining the original Mendah mine near Ploche, will have a capital stock of \$500,000 divided into shares of the par value of \$1 each. The officers will consist of W. A. Wright, president; L. A. Copeland, vice president; John Zink, treasurer, James Langton, will form the direc-

Tonopah Ore Shipments.

The ore shipments from Tonopah for the week ending Thursday last, as reported by the Goldfield Review, were as follows: From Tonopah—Tonopah Mining

company, 442 tons; Montana, 29 tons; Belmont, 100 tons; Tonopah Extension, 10 tons; Tonopah Gold Mountain, 9 Goldfield-Combination, 23 tons;

January lease, 10 tons; Zinn, Jumbo lease, 30 tons; Riley & Krise, Quartžite, 16 tons; Florence lease, 31 tons; McDonald & Fuller, Jumbo, 122 tons. The total amount shipped was 822 tons

CONCENTRATES.

Copper was quoted slightly higher today, the figures being 13%.

A body of high-grade galena is re-ported discovered in the Utah-Apex at

W. H. Goss, a prominent mining man of Salmon City, Ida., was in town

The Ploneer sampler received today four cars of ore from Tintic and one from American Fork.

The Pioneer sampler had on hand today seven cars of ore from Tintic and two from American Fork.

The Taylor-Brunton sampler today reported 5 cars of ore from Bingham, 3 from Tintic, 4 from Tonopah, and one

from Milford. D. P. Rohlding, the well known min-ing expert, has gone south to inspect the Lula, Frisco Contact and other mines in the vicinity of Milford.

Manager Tony Jacobson of the Co-lumbus Consolidated Mining company went to Alta this morning. He was ac-companied by his brother, J. A. Jacob-

The first lot of concentrates from the new Columbus Consolidated mill at Alta is being delivered to the Ploneer sampling works at Sandy. The product is worth about \$40 per ton.

The Milford Times ways: The Gold The Milford Times says: The Gold Meuntain mine in Star district is rich enough in gold and silver ore to pay for development. The men at work on the prospects now are taking out some very rich ore.

The Estelle mine and mill are behaving aplendidly. The mill is being made to crush from 15 to 20 tons of ore per day, of which 71 per cent of the gold is saved. This is remarkably the mill a navers and makes the mill a navers. od work, and makes the mill a pay ing proposition. The mine improves with development, both in the quantity and quality of the ore which is ample for any demands that may be made

UIAH MINES PAY

Daly-West and Grand Central Come Forward Today With \$84,500.

BOTH IN SPLENDID CONDITION

Former Distributed the Sum of \$72. 000, While the Latter Checked

panies today checked out to their stockholders the modest sum of \$84,509 in dividends. The greater portion of this was paid by Daly-West, which handed out \$72,000, as its regular monthly instalment to the state' circulating medium, while \$12,500 of the sum named was paid by Grand Central, which for some years has been one of the best mineral producers in this section. Both properties are understood to be in excellent physical condition, and stockholders look for a continua-tion of such movements for an indefi-

Heinze and Amalgamated.

William Scallon, former manager of the Amalgamated Mines in Montana, was in the city yesterday afternoon for a few hours accompanied by Miles Finlen of Butte, As to the reported sale of the Heinze interests to An algumated, Mr. Scallon says he does not believe that a sale has been actually consummated, but that Heinze has probably made an offer of his properties. He does not believe any transactions have progressed beyond that

Majestic Mines Doing Well.

The Majestic Mining company con-The Majestic Mining company continues to keep up its regular shipments of ore. The office was in receipt of the proceeds of two car load lots yesterday, which netted \$500.55 from the Harrington-Hickory, and one car from the Old Hickory which netted \$487.65. This is the kind of work that counts and speaks volumes for the more of the property. These regular merit of the property. These regular shipments are made from ore extracted in the course of development of the ed in the course of development of the properties. The O. K. Old Hickory and Harrington-Hickory. upon which about 100 men are employed, are each responding splendidly to the work of development now being directed by Supt. Freudenthal. The physical condition is all that the most optimistic could hope for, as alread permanency of large bodies of profitable shipping ore has been and is being uncovered in each of these producing mines.-Milford Times.

Telegraph Rate War.

Seattle, Wash., Nov. 14.—The latest move in the rate was between the Dominion Telegraph company and the government cable system is the organ-ization of local business men to "boost" business on the government line. A large number of business and commercial houses of Seattle doing business with Alaska are about to bring the matter before the chamber of commerce and it is probable that decided action will be taken by that body toward increasing commercial business over the American cable. It was stated today on good authority that the Dominion people have given the public to understand through their local representatives that the cable was out of order all along the line and that as a consequence, it could handle no dispatches. The truth of the matter is that messages are being taken by the signal corps as far as Sitka, the cable being out of repair north of there.

REVOLUTION IN BRAZIL.

Movement Has Been Suppressed, Many Being Killed.

Rio Janeiro, Nov. 15 .- The revolutionary movement has been crushed and or-der is completely restored. Senator Lauro Sodre and Deputy Barboza Lima, leaders of the movement, have fled. Other leaders have been arrested, Many persons have been killed or woundd.

STOCK MARKET EXTREMELY ACTIVE.

Southern Pacific at Opening Was In Big Demand at an Advance.

INDUSTRIALS CONSPICUOUS.

The Buying of Standard Stocks Largely Concentrated in Rock Island.

New York, Nov. 15,-Industrials and specialties held a conspicuous place in the opening dealings in stocks today, but cuisville & Nashville rose strongly 11/2. Atlantic Coast Line 24, and there was a very active demand for Southern Pacific at an advance of 1/2. Hide and Leather preferred rose 2, Manhattan 14, Linseed 19, Biscuit 19, and Colorado Fuel 19, Five thousand shares of Corn Products, which changed hands at 25 and 25%, compared with 34% last night. United States Steel rose a quarter on running sales of 4,000 shares, and Amalgamated Copper 4 on running sales of 2,500 shares. With the course of the morning the market took on the same aspect as yesterday, namely, sensational advances in usually obscure stocks and realizing in the standard railroad stocks. Later on there were heavy purchases of St. Paul and Union Pacific at railies of a point, which lifted them 1 to 1% over yesterday and the usual favorites came into general demand. The realizing carried a number of railroads below last night after Southern Pacific had advanced a full point. A large number of minor railroads and industrials made gains of 1 to 2. Sugar rose 1% and the local tractions were strong. Hide and Leather preferred jumped 5 and New York Airbrake 19. Pacific Mail lost 3 and Mexican Central a point.

The market became more irregular and under cover of the rise in St. Paul and Union Pacific, which extended a fraction further, some of the industrials were pressed for sale to take profits along with the railroads. United States Steel lost its rise and the coalers sagged below last night. New Airbrake rose 71%, Rock Island and Quick Silver Mining 24, and Southern Pacific preferred 1.

Bonds were firm at hoon.

The buying of the standard stocks was largely concentrated for a time in Rock Island, the reported sale of \$25,000,000 of the Rock Island bonds helping the stock. It sold at 37% and Union Pacific at 115, but did not materially strengthen other western stocks. Various specialties were pushed energetically to new high levels. New York Airbrake responded with a jump of 4%, Southern Pacific preferred 2, and a long list of others a point or more. Amalgamated Copper, after being neglected during the forenon, was taken in hand and pushed up, to 76%.

The persistent heavines of the coalers and evidence of steady re preferred rose 2, Manhattan 1%, Linseed 114. Biscuit 114 and Colorado Fuel 116. Five

wiped out in some cases, elow 2 o'clock the market was on the up grade again, the United States stocks, Amalgameted Copper, Union Pacific and Eric ruling at the best.
